 You can then check a holding's BVD status or the status of an individual animal by entering the CPH or ID

into the relevant box. Then click **Query Database.** 

## Step 3 — BVD Lookup

---	---

- When checking a holding's BVD status, a box will appear stating if the holding is negative, not negative, positive or non breeding.
- You will also be able to see when the holding's last status was set.
- When checking an animals status, you will be able to see the animals information as well as when the animal was tested. It will also tell you if the animal has been tested for antibody or antigen, or in this case, both.
