Page 1 of 48 100 View 1 - 100 of 4

- The first image is a list of all keepers registered for ScotMoves.
- To move between pages or change the number of entries shown per page, click on the arrows as shown in the green box.
- To create a specific search, click on the magnifying glass icon, as indicated by the red arrow.
- A search box will pop up, as shown in the second image. Click on the small drop down arrow, as indicated by the blue arrow and select how you wish to search. You can search by UID, main CPH, name, business, notification date, herd and Add. CPH(s). Then click on find, as indicated by the blue box.
- To reload the table, either click on the reload icon in the first image or the reset button in the second image, both shown by yellow arrows.
- To download the page, click on the paper icon in the first image, as shown by the pink arrow.
- The table can also be sorted by clicking on the headers of the column. For example, clicking on name will show the table in alphabetical order.

Step 3 — Movements

The first screenshot shows the 'ScotMoves' sidebar with 'Movements' highlighted by a red arrow. The second screenshot shows the 'Movements' table with columns: Animal ID, Move date, User Ref., Departure CPH, Destination CPH, BVD, UID, and MJUC. A blue box highlights the pagination controls at the bottom. The third screenshot shows the search filters with a yellow arrow pointing to the search box and a green arrow pointing to the 'Find' button.

- To view movements, click on Movements which is located below the ScotMoves header, as shown by the red arrow.
- The table shows all moves that have been processed. To move between pages, or change the number of lines displayed per page, use the arrows in the blue box.
- To create a specific search, click on the magnifying glass, as shown by the yellow arrow. A box will appear to allow you to create the search required. Once you have completed the 3 boxes with the search criteria, click on Find.
- To reload the table, click on the reload icon or the reset button, as shown by the green arrows.
- To download the table to an excel spreadsheet, click on the paper icon, as shown by the pink arrow.
- ① You can sort the table by clicking on all the headers on the table except from BVD. Doing this will show the table in ascending or descending order.

Step 4 — Editing a Movement

The first screenshot shows a table of movements. The second screenshot shows a confirmation dialog box. The third screenshot shows the 'Update move details' form.

- To edit a movement, tick the small box next to the animal ID that requires editing.
- Click on the pencil icon as shown by the red arrow.
- A box will appear. Check the details are correct and click update.
- In the next box, enter the departure cph, movement date & destination cph. Click submit.

Guidance

ScotMoves

ScotMoves will allow you to move cattle within your business without reporting the movements to the Cattle Tracing System (CTS). The ScotMoves system will replace the CTS linked holding system. **The ScotMoves system does not require any additional information to be recorded other than those moves you are already recording in your holding register.** The only difference is where you are recording the information.

The ScotMoves system is being operated by ScotEID on behalf of Scottish Government and will be beneficial to both cattle keepers and government in terms of disease control and public health.

To register to use the system you should contact the ScotEID help desk. You can update or amend the registration at any point.

The use of ScotMoves is not mandatory. If you do not wish to use the ScotMoves system the alternatives are:

- You can report all moves through CTS; or
- You can, where possible, amalgamate all land you use on a permanent or long term basis that is within the 5 mile CPH rules.

ScotMoves Resources:

- ScotMoves application form
- ScotMoves website user guide
- ScotMoves exemption application form
