 A table listing the Animal ID's, CPH, CPH BVD Category, DOB, Date the animal moved on and the BVD

status of each animal will be shown.

- The table can be sorted by selecting the header at the top of each column. For example to select the most recent/oldest date animals moved on, toggle between the arrows on the **date_on** column heading.
- Selecting the blue *i* symbol next to the Animal ID will give further information on the SEX, Breed, Dam, DOB and Birth CPH of the animal. Also further information from ScotMoves and CTS.
- Click on *i* symbol next to the main CPH number for the address and the current number of cattle and calves born to this holding.

- The magnifying glass at the bottom left hand corner of the table will allow you to search for an individual **Animal ID, Main CPH, CPH BVD Category or the date an animal moved on**.
- Select the category required from the first drop down menu in the search window. The second drop down menu lists further options of *equal to, begins with, ends with* etc. Allowing you to search, for example, a full Animal ID or using part of it. In the final box enter either the Animal ID, CPH or Date and select **Find**.
- If searching for all cattle requiring testing on a specific date, search for the **Date on**, equal to and then select the date from the calendar as shown. A search of all cattle with a greater than or less than the move on date can also be searched.
