- The table lists the CPH's of BVD holdings approaching a CBI. Also the number of calves, cattle, negative or positive animals and risky cattle for each holding. Including risky cattle which have been on the holding for greater than 40 days.
- The last clear date for the holding's BVD negative status, last lab submission and CBI start date are also listed.
- The table can be sorted by ascending or descending order by clicking on the arrows in each of the column headers you want to sort by. As shown by the red arrow.

Step 3 — Search the approaching CBI table
