Edit

3. Submit the calf registrations

Submit calf registrations

- You have the option to register twins or triplets. Enter the details for each twin or the triplets and tick the twin/ triplet box.
- i

This overrides the validation allowing the Dam ID of the mother to be used more than once.
- 📌

If you require assistance to record multiple births please contact ScotEID.
- Once added to the list in Section 2, the multiple births appear with a Y in the 'Twin' column.

## Step 2 — Using the same Dam twice by mistake

The screenshot shows the '1. Add one or more births to the list' form. The fields are: Eartag (UK581553400024), Date of birth (15/09/2021), Sex (Female), Breed (AAX: Aberdeen Angus Cross (Beef)), Dam ID (UK547332600107), Genetic Dam ID, Sire ID, User reference (Calved herself), and Twin/Triplet (checkbox). A blue 'Add to list' button is at the bottom. A white warning box is overlaid on the form, containing the text: 'A birth has already been added for UK547332600107. Do you want these to be recorded as twins/triplets?'. Below the text are 'Cancel' and 'OK' buttons. A red arrow points to the 'OK' button. Below the form, a table shows a list of animals with columns for Animal ID, Date of birth, Sex, Breed, and Dam ID. The table has two rows: one with Animal ID UK58155320 and Dam ID 44399 2 00005, and another with Animal ID UK581553300023, Date of birth 15/09/2021, Sex Female, Breed AAX, and Dam ID UK547332 6 00107.

Animal	Date of birth	Sex	Breed	Dam ID
UK58155320				44399 2 00005
UK581553300023	15/09/2021	Female	AAX	UK547332 6 00107

**i** If you select the same Dam ID for a subsequent calf registration you get a warning message.

**⚠** A birth has already been added for UK547332600107. Do you want these to be recorded as twins/triplets?

- Your options are 'Cancel' to amend the Dam ID or 'OK' to record as a twin or triplet.
