How to combine search criteria

Combining search criteria for searching more than one than data element or multiple data elements for a range of values

Written By: Debbie Dow

79/449/0037 	19/09/2022	UK5
71/255/0004 	19/09/2022	UK5
69/202/0023 	19/09/2022	UK5
83/524/0028 	19/09/2022	UK5
69/185/0015 	19/09/2022	UK5

Step 1 — The search box

79/449/0037		19/09/2022	UK5
71/255/0004		19/09/2022	UK5
69/202/0023		19/09/2022	UK5
83/524/0028		19/09/2022	UK5
69/185/0015		19/09/2022	UK5

- On all table views there is a small magnifying glass icon in the bottom left.
- Click on the icon for the search box.
- A search box appears.

Step 2 — Adding and selecting search options

- This '+' adds another criteria to the search
- These double arrows indicate drop down boxes are available to select the data element and the qualifier.
- Clicking here removes the line from the search.

Step 3 — An example - born on holding a year either side of DoB

ScotMoves+ Home

View data

Cattle lookup	View
Births	View
Deaths	View
On&OFF Movements	View
On Movements	View
Off Movements	View
CTS historic Movements	View

- Select the table to select from - in this example - Births

Step 4 — Building the search criteria

Main CPH	DOB	Animal ID	Sex	Breed	Birth CPH
/027/0046	20/09/2022	UK520525 4 01350	Male	FKVX	66/027/0046
/166/0040					
/79/0003					
/255/0004					
/79/0003					
/255/0004					
/525/0022					
/255/0004					
/19/0074					
/255/0004					
/480/0000					
/255/0004	20/09/2022	UK564275 1 10888	Male	AAX	71/255/0004

Search...

all

+

Main CPH

equal
