How to find all internal moves recorded for a main holding

To list all the internal moves for a keeper by first finding the UID, then searching on All within business moves.

Written By: Debbie Dow

Step 1 — Finding the keeper UID

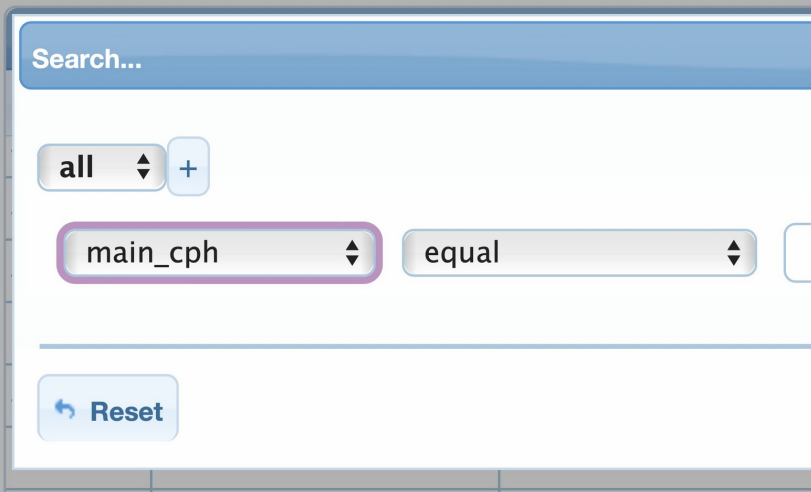

Cattle

- ▶ [ScotMoves+ \(Births/Deaths/Sales...\)](#)
- ▼ [ScotMoves \(Within business Movements\)](#) 
 - [All Exemptions](#)
 - [All Additional Holdings](#)
 - [All Keepers](#)
- ▶ [Within Business Movements](#)
- [Guidance](#)

- Click on ScotMoves (Within Business Moves) to expand

Step 2 — Search for the UID using the main CPH

main_cph equal

Reset

- Enter the main CPH into the search box
- Click the 'Find' button.
- Copy or make a note of the UID

Step 3 — Copy or make a note of the keeper UID

Keepers	
uid	main_cph
26145	66/001/0079
27659	66/001/7024
17439	66/002/0017
9962	66/002/0031

- Find the keeper UID by searching for the Main CPH
- ⓘ You can do this by using the search box. Click on the spy glass icon in the bottom left hand corner of the table.

Step 4 — Using the UID to search for the moves

Find

Animal ID	Date	Holding ID
UK580049 5 02449	30/01/2023	IH
UK581122 2 02449	30/01/2023	IH

- Select the 'within business moves' item from the ScotMoves menu.
- Click on the search icon and select UID from the search options drop down.
- Enter the UID
- Click 'Find'.

Step 5 — Click the clock icon to add the notification dates

UK509051 7 00161		21/12/2020	per ph
UK509051 3 00164		21/12/2020	per ph
UK509051 7 00168		21/12/2020	per ph
UK509051 1 00197		21/12/2020	per ph

- All the within business moves that have been recorded for that main holding are presented on the table.
- To add the notification date to the table please click on the clock icon at the bottom of the table

Step 6 — Check the number of pages

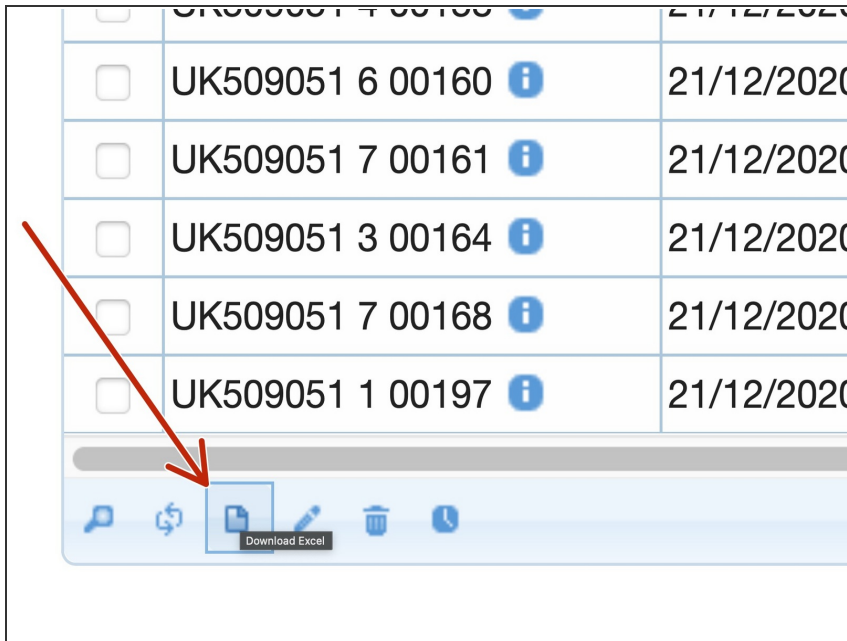

96/839/0126	69/184/0055	09/12/2021	Neg	25246	25246
96/839/0126	69/184/0055	09/12/2021	Neg	25246	25246

View 1 - 100 of 239

- Increase the movements displayed per page, if required, as each page on the table has to be downloaded one at a time.
- eg - For 239 moves, increasing the number per page to 500 from 100 - requires only one download

Step 7 — How to download your list of internal moves

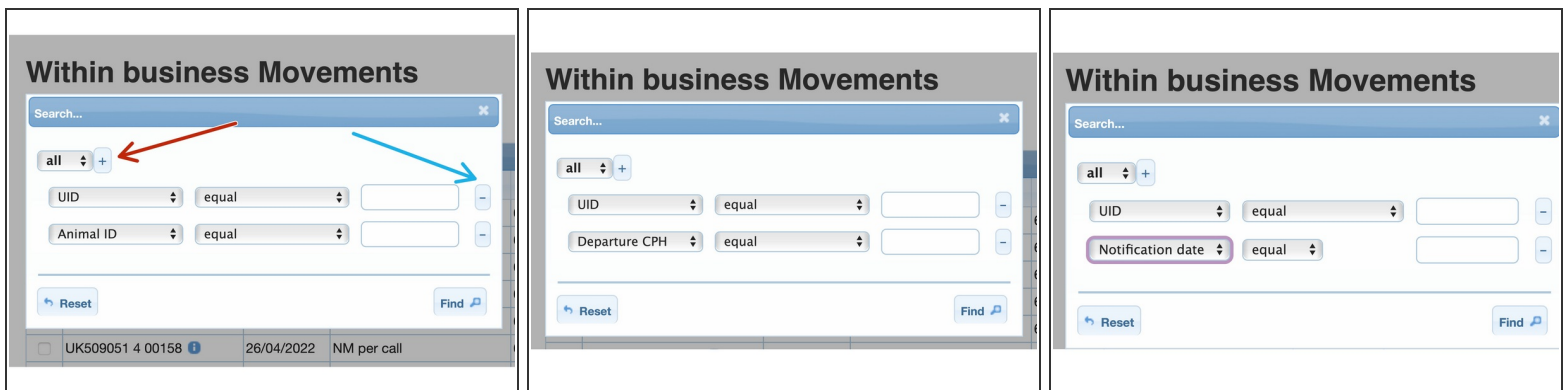

<input type="checkbox"/>	UK509051 6 00160		21/12/2020
<input type="checkbox"/>	UK509051 7 00161		21/12/2020
<input type="checkbox"/>	UK509051 3 00164		21/12/2020
<input type="checkbox"/>	UK509051 7 00168		21/12/2020
<input type="checkbox"/>	UK509051 1 00197		21/12/2020

Download Excel

- Clicking on the sheet of paper icon downloads the data in the table to a csv file.

A csv file can be saved as an excel spreadsheet or as any other type of spreadsheet.

Step 8 — You can filter further using the other columns

Within business Movements

Search...

all +

UID equal

Animal ID equal

UK509051 4 00158 26/04/2022 NM per call

Within business Movements

Search...

Departure CPH equal

Within business Movements

Search...

all +

UID equal

Notification date equal

- By clicking the '+' button, you can add filters
- By clicking the '-' button, you can remove them.
- This search would provide all internal movements for that animal ID whilst registered to the main holding of the UID.
- There are other examples in the images attached to this step.

Step 9 — Filtering by movement date

Within business Movements

Search...

When there are a lot of movements and you are interested in a particular time period - you can filter using the move date by using greater than and less then.

Step 10 — The CPH columns in the table

Within business Movements	
Departure CPH	Destination CPH
69/184/0055	96/839/0126
69/184/0055	96/839/0126
69/184/0055	96/839/0126
69/184/0055	96/839/0126
69/184/0055	96/839/0126
69/184/0055	96/839/0126
69/184/0055	96/839/0126
69/184/0055	96/839/0126

- The departure CPH shows the additional holding the animal moved from
- The destination CPH shows the additional the animal moved to.
- Please note, these are internal moves and are not recorded on the passport.
- Internal moves represent physical moves only. An animal bought on can go directly to an additional holding. No internal move shows from the main holding to the additional holding because it did not physically take place.
