- On the **Keeper details** page you can also add another holding and tick the **Cattle Notifications** box if you would like to receive notifications regarding brought in cattle requiring testing.

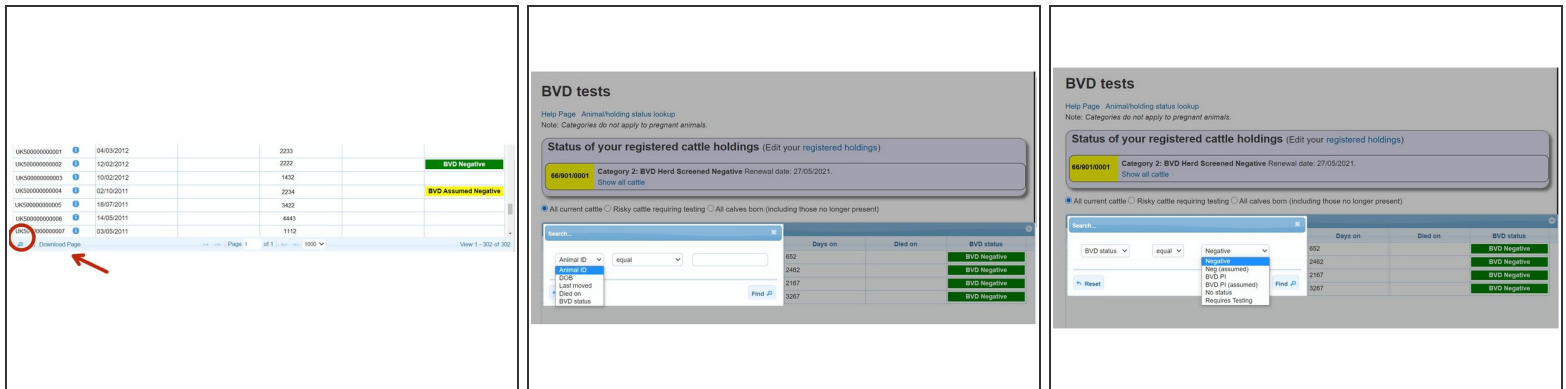

If any changes are made press **Save** at the bottom of the page

## Step 8 — How to navigate the BVD Tests Page

- Select **Show All Cattle** on the top banner, to view the animal ID's and BVD status of all cattle on the holding selected.
- ID's of **All Current Cattle** on the holding will be listed in the table, along with the DOB, date animal last moved, number of days on holding , date died on and the individual BVD Status.
- ❗ Click on the blue *i* information symbol next to the Animal ID and a new window will display further details of the animal's Sex, Breed, Dam ID, Sire ID, DOB, Birth CPH, Current CPH & last move.

## Step 9 — BVD Tests Search Function

- To search the BVD results for individual animals, click on the magnify glass circled red.
- On the search window, a drop down menu will allow you to select Animal ID, DOB, Last moved, Died on or BVD status.
- There are various options listed you can search all cattle for. For example, to list all cattle with a Negative BVD status, select BVD status in the first drop down menu, then select equal and from the last menu select Negative and click **Find**.
- This search can be completed for all options listed eg animals with no BVD status or Assumed Negative status. Select **Reset** and repeat search.
- The list of animals can then be downloaded to Excel by selecting **Download Page** at the bottom of the window.
