### Step 1 — Upload EID data

 Click on "Upload EID Data" under the Sheep Menu, as shown by the red arrow.

#### Step 2 — Upload EID data

Navigation	Upload EID Data	
Home Keeper Details Logout	Generally we would recommend using the <u>ScotEID application</u> for uploading data from a reader. A brief how-to can be found here. Please note that there are many, many different EID file formats and inevitably there will be some that are not currently supported by the website. If you find your file does not import correctly please send a copy of it to support@scoteid.com and we will attempt to provide future support for it.

- Click on Choose File as shown by the red arrow and from your device select the file with your EID data which you wish to upload.
- Click on upload.
- (i) An example of a file to upload is shown in the 3rd photo.

#### Step 4 — Upload EID data

	<ul> <li>A message, like the 1 underlined in red, will appear.</li> </ul>
Upload files should be a text/ to r. sv file (not excel/ xis). To upload a file go to the Upload of data page click on the browse button, select your file and then click the submit button. You should get a message like this: Import Success: Chapel_hill-1.txt 137 records imported. Please go to the incomplete groups page to complete the lot data. The animal IDs within a file are recorded as "incomplete groups" until the associated movement information has been completed. You should be automatically redirected to the "incomplete Groups" page after -3 seconds. Mosi common types of EID file should be supported. If you have problems please make sure the text is being saved in ANSI format and you haven't added any extra text to the file. If you still have problems contact support@scoteid.com.	<ul> <li>Follow the link to incomplete uploaded groups, as shown by the blue arrow, to complete the upload of the reads.</li> <li>Please see the guide titled Incomplete Uploaded Groups for help with this.</li> </ul>
